

# HPE T750 Gen5 NA/JP UPS with Management Card Slot (Q1F47A)

---

## What's new

- LCD offers an industry leading graphical interface that provides critical UPS information in a single screen view.
- Remote access through an optional 1GbE network management adapter.
- Slim tower design help to conserve valuable space.

## Overview

Do you need more reliable power with advance battery management in a space saving design? HPE Line Interactive Tower Uninterruptible Power Systems deliver clean power with an advanced battery management capability. Computing environments are expected to deal with the frequencies and severities of power outages, increased power demands from the public and private cloud, software as a service (SaaS), and mobile computing plus online services and applications while maintaining tight cost controls. HPE Line Interactive Tower Uninterruptible Power Systems was designed to meet these needs and exceed expectations as the industry requires a

reliable, efficient and easy-to-use UPS within your computing environment.

## Features

### Delivers Power Protection and Management for IT Environments

The HPE Line Interactive Tower Uninterruptible Power Systems models lower your power protection cost by providing up to eight (8) power outlets per UPS, allowing you to safeguard your IT and office equipment.

Standard features include an intuitive front panel display, enhanced battery management (EBM), network transient protection, and serial and USB ports for data exchange with the host computer.

Includes (at no additional cost) HPE Power Protector Software that provides the flexibility to monitor power conditions and control the HPE Line Interactive Tower Uninterruptible Power Systems both locally or remotely.

Backed by a 3-year limited warranty and an exclusive 30-day battery pre-failure warning, which provides notification from the HPE Power Protector software of an impending battery failure.

### Increased Efficiency and Capacity to Maintain Uptime and Business Continuity

The HPE Line Interactive Tower Uninterruptible Power Systems models provide from 1.5kVA (R1500 G4) up to 7.2kVA (R7000) of output power in as little as 4U of rack space.

HPE Power Protector Software and an optional UPS Network Module enables you to monitor and manage power through HPE Systems Insight Manager and other SNMP management programs or via a standard Web browser (UPS Network Module optional on R1500 G4).

Includes a front panel LCD display for ease of management.

Enhanced system flexibility with two independently controlled load segments.

### Simple and Fast Integration

HPE Line Interactive Tower Uninterruptible Power Systems batteries can be hot-swapped safely without ever shutting down equipment.

LCD offers an industry-leading graphical interface that provides complete critical UPS information in a single screen view.

## Technical specifications

## HPE T750 Gen5 NA/JP UPS with Management Card Slot

<b>Product Number</b>	Q1F47A
<b>Form factor</b>	Tower
<b>Power output</b>	Operating Voltage Settings Power Out (VA/Watts) 110V to 120V 750VA/600W 100V- Japan 750VA/500W 100V- Japan 750VA/500W
<b>Power distribution</b>	Single Phase
<b>UPS battery type</b>	Maintenance-free, sealed, valve-regulated lead acid (VRLA)
<b>Product dimensions (metric)</b>	(WxDxH) 150 x 340 x 210 mm
<b>Weight</b>	10.7 kg
<b>Warranty</b>	3 year limited warranty

## HPE Services

No matter where you are in your transformation journey, you can count on HPE Services to deliver the expertise you need when, where and how you need it. From strategy and planning to deployment, ongoing operations and beyond, our experts can help you realize your digital ambitions.

### Consulting services

Experts can help you map out your path to hybrid cloud and optimize your operations.

### Managed services

HPE runs your IT operations, giving you unified control, so can focus on innovation.

### Operational services

Optimize your entire IT environment and drive innovation. Manage day-to-day IT operational tasks while freeing up valuable time and resources.

- HPE Complete Care Service: a modular service designed to help optimize your entire IT environment and achieve agreed upon IT outcomes and business goals. All delivered by an assigned team of HPE experts.
- HPE Tech Care Service: the operational service experience for HPE products. The service provides access to product specific experts, an AI driven digital experience, and general technical guidance to help reduce risk and search for ways to do things better.

### Lifecycle Services

Address your specific IT deployment project needs with tailored project management and deployment services.

### HPE Education Services

Training and certification designed for IT and business professionals across all industries. Create learning paths to expand proficiency in a specific subject. Schedule training in a way that works best for your business with flexible continuous learning options.

The [Defective Media Retention \(DMR\)](#) service feature option applies only to Disk or eligible SSD/Flash Drives replaced by Hewlett Packard Enterprise due to malfunction. [Comprehensive Defective Material Retention \(CDMR\)](#) allows you to keep all data retentive components.

## HPE GreenLake

[HPE GreenLake edge-to-cloud platform](#) is HPE's market-leading as-a-Service offering that brings the cloud experience to apps and data everywhere – data centers, multi-clouds, and edges – with one unified operating model, on premises, fully managed in a pay per use model.
