

# HPE VIRTUAL CONNECT SE 16GB FIBRE CHANNEL MODULE FOR HPE SYNERGY (P08477-B21)

## Synergy Virtual Connects

---

### WHAT'S NEW

- Due to changes in business processes, new part numbers are being introduced to replace the existing part numbers. Please refer to QuickSpecs for details.

### OVERVIEW

Do you need to simplify the way to connect your compute modules with the SAN? The HPE Virtual Connect SE 16Gb Fibre Channel Module for HPE Synergy is a SAN interconnect that simplifies Synergy Compute Module connections by cleanly separating the frame from the SAN. It simplifies the process of connecting Synergy modules to Fibre Channel networks by reducing cables and your SAN switch management domain, and change Synergy Compute Modules in minutes. You can reduce costs and simplify connections to SANs, consolidate your network connections, and enable administrators to add, replace and recover Synergy Compute Module resources on-the-fly. Standards-based, it looks like a pass-thru device to the Fibre Channel network, yet provides all the key benefits of integrated switching including high performance 16 Gb uplinks to the SAN. The integrated design frees up rack space, reduces power and cooling requirements, while reducing cables and utilizing small form-factor pluggable transmitters.

## FEATURES

### The Simplest Way to Connect Synergy Compute Modules to Fibre Channel Based SAN

HPE Virtual Connect SE 16Gb Fibre Channel Module for HPE Synergy is compatible with all other NPIV standards-based SAN switch products. It provides high performance and end-to-end connections with your favorite brands of SAN fabric.

Functions as a simple Fibre Channel Host Bus Adapter (HBA) to the SAN network while reducing cable complexity. Any change to the compute modules is transparent to its associated network, cleanly separating the Synergy Compute Modules from the SAN and relieving SAN Administrators from maintenance.

Managed by industry-leading, software-defined, infrastructure-based HPE OneView. HPE OneView allows the SAN administrator to define available SANs, Synergy Compute Modules connections, and manage Synergy Compute Module connection profiles.

It provides simple, seamless connectivity between virtualized Synergy Compute Modules and SAN fabric.

## Technical specifications

### HPE Virtual Connect SE 16Gb Fibre Channel Module for HPE Synergy

<b>Product Number</b>	P08477-B21
<b>Warranty</b>	3 year Parts, 3 year Labor, 3 year on-site support

For additional technical information, available models and options, please reference [the QuickSpecs](#)

## HPE POINTNEXT SERVICES

[HPE Pointnext Services](#) brings together technology and expertise to help you drive your business forward and prepare for whatever is next.

### Operational Services from HPE Pointnext Services

[HPE Pointnext Tech Care](#) provides fast access to product-specific experts, an AI-driven digital experience, and general technical guidance to help enable constant innovation. We have reimagined IT support from the ground up to deliver faster answers and greater value. By continuously searching for better ways to do things—as opposed to just fixing things that break—HPE Pointnext Tech Care helps you focus on achieving your business goals.

[HPE Pointnext Complete Care](#) is a modular, edge-to-cloud IT environment service that provides a holistic approach to optimizing your entire IT environment, and achieving agreed upon IT outcomes and business goals through a personalized and customer-centric experience. All delivered by an assigned team of HPE Pointnext Services experts.

**HPE Integration and Performance Services** help you customize your experience at any stage of your product lifecycle with a menu of services based on individual needs, workloads, and technologies.

- Advise, design, and transform
- Deploy
- Integrate and migrate
- Operate and improve
- Financial Services
- Greenlake Management Services
- Retire and sanitize
- IT Training and personal development

### Other related services

[HPE Education Services](#) delivers a comprehensive range of services to support your people as they expand their skills required for a digital transformation. Consult your HPE Sales Representative or Authorized Channel Partner of choice for any additional questions and support options.

**Defective Media Retention** is optional and allows you to retain Disk or eligible SSD/Flash Drives replaced by HPE due to malfunction.

## HPE GREENLAKE

[HPE Greenlake](#) is HPE's market-leading IT as-a-Service offering that brings the cloud experience to apps and data everywhere – data centers, multi-clouds, and edges – with one unified operating model. HPE GreenLake delivers public cloud services and infrastructure for workloads on premises, fully managed in a pay per use model.
