

# HPE XP P9000 PERFORMANCE ADVISOR SOFTWARE

## Storage Device Management Software

---

### WHAT'S NEW

- Significantly lower your IT expenditure with Meter-based Term licenses by purchasing software only for the period you use them

### OVERVIEW

HPE XP P9000 Performance Advisor identifies performance bottlenecks before they impact your business. It collects and displays performance data for HPE XP P9500 and XP Disk Arrays. It helps mitigate risk by providing performance alarm notification through email, SNMP, or user-defined scripts and helps avoid impending outages due to unavailable or misallocated storage resources. Its report generation and scheduling capability improves IT processes and maintains array performance by immediately identifying storage bottlenecks.

Performance Advisor reduces complexity and accelerates resolution of problems by collecting information from multiple arrays across multiple sites, and allows you to drill down to the problem area. Its ability to collect up to 320 GB of historical data enables detailed trend analysis and makes it easier to analyze performance data at regular intervals. Its rich Command-Line User interface (CLUI) supports integration with third party software.

## FEATURES

### **Accelerate Business Growth by Identifying Performance Bottlenecks Before they Impact your Business**

Easy-to-use Graphical User Interface provides a system view of all HPE XP P9500 Storage resources.

Extensive reporting capabilities and a large 320 GB database repository for detailed trend analysis.

Supports P9500, XP24000, XP20000, XP12000, XP10000, XP1024, XP128, XP512, and XP48 disk arrays and the SVS200.

Migrate data away from hot spots by using HPE XP P9000 Performance Advisor with HPE XP P9000 Tiered Storage Manager.

### **Mitigate Risks with Automatic Alarm Notification through Email, SNMP or User-defined Scripts**

Monitor the performance of HPE XP P9500 Storage resources with automatic event notification via email, SNMP, and user generated scripts. Quickly identify and resolve problems.

Stay informed by running reports for periods as short as an hour and using charts to examine current performance.

### **Reduce Costs of Performance Problems by Quickly Drilling Down to the Problem Area**

Quickly resolve problems with P9000Watch, a command line interface utility provided with HPE XP P9000 Performance Advisor. P9000Watch is designed for focused trouble-shooting and can capture data as frequently as every 10 seconds.

Reduce complexity by collecting and displaying performance data for HPE XP P9500 and XP Disk Arrays, multiple hosts and sites.

## Technical specifications

## HPE XP P9000 Performance Advisor Software

### Supported hardware environment

HPE XP P9500 Storage and HPE XP Disk Arrays

### Warranty

HPE warrants only that the Software media will be free of physical defects for a period of ninety (90) days from delivery

## HPE POINTNEXT SERVICES

[HPE Pointnext Services](#) brings together technology and expertise to help you drive your business forward and prepare for whatever is next.

### Operational Services from HPE Pointnext Services

[HPE Pointnext Tech Care](#) provides fast access to product-specific experts, an AI-driven digital experience, and general technical guidance to help enable constant innovation. We have reimagined IT support from the ground up to deliver faster answers and greater value. By continuously searching for better ways to do things—as opposed to just fixing things that break—HPE Pointnext Tech Care helps you focus on achieving your business goals.

[HPE Pointnext Complete Care](#) is a modular, edge-to-cloud IT environment service that provides a holistic approach to optimizing your entire IT environment, and achieving agreed upon IT outcomes and business goals through a personalized and customer-centric experience. All delivered by an assigned team of HPE Pointnext Services experts.

**HPE Integration and Performance Services** help you customize your experience at any stage of your product lifecycle with a menu of services based on individual needs, workloads, and technologies.

- Advise, design, and transform
- Deploy
- Integrate and migrate
- Operate and improve
- Financial Services
- Greenlake Management Services
- Retire and sanitize
- IT Training and personal development

### Other related services

[HPE Education Services](#) delivers a comprehensive range of services to support your people as they expand their skills required for a digital transformation. Consult your HPE Sales Representative or Authorized Channel Partner of choice for any additional questions and support options.

**Defective Media Retention** is optional and allows you to retain Disk or eligible SSD/Flash Drives replaced by HPE due to malfunction.

## HPE GREENLAKE

[HPE Greenlake](#) is HPE's market-leading IT as-a-Service offering that brings the cloud experience to apps and data everywhere – data centers, multi-clouds, and edges – with one unified operating model. HPE GreenLake delivers public cloud services and infrastructure for workloads on premises, fully managed in a pay per use model.
