HPE XP P9000 FOR BUSINESS CONTINUITY MANAGER SOFTWARE

Storage Device Management Software

WHAT'S NEW

- Significantly lower your IT expenditure with Meter-based Term licenses by purchasing software only for the period you use them

OVERVIEW

HPE XP P9000 for Business Continuity Manager Software enhances productivity by centralizing and simplifying management of HPE XP P9500 Storage local and remote replication functionality in mainframe environments. It provides simplified and centralized enterprise-wide management of the XP P9500 Storage based mainframe replication capabilities provided by HPE XP P9000 Business Copy for Mainframe, HPE XP P9000 Continuous Access Synchronous for Mainframe, and HPE XP P9000 Continuous Access Journal for Mainframe. By automating configuration and disaster recovery

tasks, Business Continuity Manager reduces human error, saves time, and improves data availability. For additional efficiency, Business Continuity Manager provides scripting capability and group control commands, allowing administrators to manage multiple volumes easily. Through a linkage with XP P9000 Replication Manager Software, mainframe replication information can be displayed by XP P9000 Command View Advanced Edition Software.

FEATURES

Centralized Replication Management for Mainframe Customers

Business Continuity Manager Software provides simplified and centralized enterprise-wide management of the HPE XP P9500 Storage based mainframe replication capabilities provided by Business Copy for Mainframe, Continuous Access Synchronous for Mainframe, and Continuous Access Journal for Mainframe.

By automating configuration and disaster recovery tasks in multi-site configurations, HPE XP P9000 for Business Continuity Manager reduces human error, saves time, and improves data availability.
