HPE XP7 Intelligent Storage Manager

Overview

Do you need to simplify your storage environment to enable growth and reduce complexity?

Then HPE XP7 Intelligent Storage Manager is the application you need. HPE XP7 Intelligent Storage Manager is a configuration management tool that reduces the complexity of managing HPE XP storage systems. HPE XP7 Intelligent Storage Manager's intuitive Graphical User Interface enables a short learning curve, and gives users at-a-glance status of XP storage resources. Built-in configuration intelligence provides best-practice recommendations to help users simplify deployment, management, and maintenance. Quickly and easily create parity groups, pools, and volumes, then set replication policies for up to 50 XP storage systems. Intelligent Storage Manager reduces complexity and the effort required to manage storage resources, allowing for more time to focus on strategic revenue generating initiatives.

Features

Improve Storage Administrator Productivity by Reducing Complexity and Simplifying Management

HPE XP7 Intelligent Storage Manager's intuitive GUI streamlines storage life-cycle tasks. Deploy, monitor, and tune storage infrastructure using just a few clicks of the mouse. Use recommended best practices to simplify deployment and get it right the first time.

Use the comprehensive dashboard view to quickly assess storage infrastructure status. See alerts for HW, capacity, and data protection. Drill down into storage resources to view available capacity. If action is needed, tasks which previously took hours can be done in minutes or seconds.

HPE XP7 Intelligent Storage Manager easily integrates into existing environments with no disruption. The REST-API interface allows easy integration with existing infrastructure management tools, and lessens the learning curve.

HPE XP7 Intelligent Storage Manager Drives Efficiency and Lower Total Cost of Ownership

Use HPE XP7 Intelligent Storage Manager as the single interface to manage all storage life-cycle needs. Minimizing the need for multiple applications and differing resource skills.

Deploy new or modify existing configurations in a fraction of the time. Allowing more time to focus on strategic initiatives.

Create and deploy service level profile tiers to match SLA requirements. Easily deploy only the resources that are required, no more or less.

HPE Services

No matter where you are in your transformation journey, you can count on HPE Services to deliver the expertise you need when, where and how you need it. From strategy and planning to deployment, ongoing operations and beyond, our experts can help you realize your digital ambitions.

Advisory & Professional services

Experts can help you map out your path to hybrid cloud and optimize your operations.

Managed services

HPE runs your IT operations, giving you unified control, so can focus on innovation.

Support services

Optimize your entire IT environment and drive innovation. Manage day-to-day IT operational tasks while freeing up valuable time and resources.

— **HPE Complete Care Service:** a modular service designed to help optimize your entire IT environment and achieve agreed upon IT outcomes and business goals. All delivered by an assigned team of HPE experts.

— **HPE Tech Care Service:** the operational service experience for HPE products. The service provides access to product specific experts, an AI driven digital experience, and general technical guidance to help reduce risk and search for ways to do things better.

— **HPE Multivendor Services:** Single point of accountability for managing on-site hardware and software support for multivendor products. HPE experts help manage your IT across technologies and platforms for HPE and non-HPE technologies, acting as the single point of contact for your IT operational needs.

Lifecycle Services

Address your specific IT deployment project needs with tailored project management and deployment services.

HPE Education Services

Training and certification designed for IT and business professionals across all industries. Create learning paths to expand proficiency in a specific subject. Schedule training in a way that works best for your business with flexible continuous learning options

Defective Media Retention is optional and allows you to retain Disk or eligible SSD/Flash Drives replaced by HPE due to malfunction.

GreenLake

GreenLake is the cloud to run and manage your entire hybrid landscape—private, public, and edge. It helps you to:

— Streamline IT Operations across compute, storage, and networking without the chaos

— Unify and secure data, as you move faster

— Accelerate AI, from pilot to production

The result: greater operational efficiency, lower TCO, and faster AI delivery—all from one unified, intelligent platform built for today's hybrid enterprise.
