Red Hat OpenShift Container Platform

What's new

- RH OpenShift Container Platform: 2 Cores /4vCPU, 1&3 year subscription, 9x5 support provided by Red Hat
- RH OpenShift Container Platform: 2 Cores /4vCPU, 3 year subscription, 24x7 support provided by Red Hat
- RH OpenShift Container Storage: 2 Cores,1&3 year subscription, 9x5 support provided by Red Hat
- RH OpenShift Container Storage: 2 Cores, 3 year subscription, 24x7 support provided by Red Hat
- RH Ansible Automation Platform: 100 Nodes,1&3 year subscription, 9x5 support provided by Red Hat

Overview

Are you looking for a one-stop solution for your Red Hat® environment?

These three technologies provide everything needed for hybrid cloud, enterprise container, and Kubernetes deployment.

Red Hat OpenShift® Container Platform provides you the flexibility to tailor products to your individual needs with the freedom of choosing from the HPE ProLiant, HPE Synergy and workload solutions portolio.

Red Hat Ansible Automation® helps operating automation across your organization run infrastructure code and automate provisioning tasks for cloud providers, storage solutions, and other infrastructure components. Meanwhile Red Hat OpenShift® Container Storage is persistent software-defined storage integrated optimized for Red Hat OpenShift® Container Platform.

Features

Industry Leading Solutions

Red Hat OpenShift® Container Platform, Red Hat Ansible Automation and Red Hat OpenShift Container Storage are available for HPE Proliant, HPE Synergy and workload solutions.

Hewlett Packard Enterprise develops reference architectures (RA) for Red Hat OpenShift® Container Platform, Red Hat OpenShift® Container Storage and Red Hat® Ansible Automation on HPE Servers to anticipate customer questions and issues prior to the installation.

Red Hat OpenShift® Container Storage

HPE Server infrastructure paired with Red Hat OpenShift® Container Storage enables persistent software-defined storage solutions for data-intensive workloads with file, block or object format data created by enterprise Kubernetes users.

Red Hat® Ansible Automation

Manage complex deployments with centralize automation using Red Hat®Ansible. Red Hat Ansible Automation is now combining the agility of Red Hat Ansible Tower and Red Hat Ansible Engine providing the tools to implement automation quickly.

Red Hat Ansible Automation Platform is a foundation for building and operating automation across an organization. The platform includes all the tools needed to implement enterprise-wide automation.

One Single Purchase Point

Red Hat OpenShift® Container Platform, Storage and Ansible Automation allows you to make Hewlett Packard Enterprise your single point of purchase, contact and delivery. Receive your subscription and activate it within 30 days.

Support for your software is provided directly from Red Hat.

HPE Services

No matter where you are in your transformation journey, you can count on HPE Services to deliver the expertise you need when, where and how you need it. From strategy and planning to deployment, ongoing operations and beyond, our experts can help you realize your digital ambitions.

Advisory & Professional services

Experts can help you map out your path to hybrid cloud and optimize your operations.

Managed services

HPE runs your IT operations, giving you unified control, so can focus on innovation.

Support services

Optimize your entire IT environment and drive innovation. Manage day-to-day IT operational tasks while freeing up valuable time and resources.

— **HPE Complete Care Service:** a modular service designed to help optimize your entire IT environment and achieve agreed upon IT outcomes and business goals. All delivered by an assigned team of HPE experts.

— **HPE Tech Care Service:** the operational service experience for HPE products. The service provides access to product specific experts, an AI driven digital experience, and general technical guidance to help reduce risk and search for ways to do things better.

— **HPE Multivendor Services:** Single point of accountability for managing on-site hardware and software support for multivendor products. HPE experts help manage your IT across technologies and platforms for HPE and non-HPE technologies, acting as the single point of contact for your IT operational needs.

Lifecycle Services

Address your specific IT deployment project needs with tailored project management and deployment services.

HPE Education Services

Training and certification designed for IT and business professionals across all industries. Create learning paths to expand proficiency in a specific subject. Schedule training in a way that works best for your business with flexible continuous learning options

Defective Media Retention is optional and allows you to retain Disk or eligible SSD/Flash Drives replaced by HPE due to malfunction.

GreenLake

GreenLake is the cloud to run and manage your entire hybrid landscape—private, public, and edge. It helps you to:

— Streamline IT Operations across compute, storage, and networking without the chaos

— Unify and secure data, as you move faster

— Accelerate AI, from pilot to production

The result: greater operational efficiency, lower TCO, and faster AI delivery—all from one unified, intelligent platform built for today's hybrid enterprise.
