

# SUSE Linux Enterprise Server from HPE

SUSE Storage per Node Add-on 16-50 Nodes 5-year Subscription 24x7 Support E-LTU (S3B65AAE)

## What's new

- SUSE Rancher Prime and SUSE Storage products available now.
- SUSE Multi-Linux Manager Lifecycle Management Plus 1-2 Sockets or 1-2 Virtual Machines: products available now.
- SUSE Linux Enterprise Server 1-2 Sockets: products available now.
- SUSE Linux Enterprise Server 1 Virtual Machine: products available now.

## Overview

Are you looking for a reliable, scalable and multi-model Linux® operating system?

SUSE Linux Enterprise Server from Hewlett Packard Enterprise is a highly reliable, scalable, and secure server operating system, built to power mission-critical workloads in both physical and virtual environments.

It is an affordable, interoperable, and manageable open-source foundation. With it, enterprises can cost-effectively deliver core business services, enable secure networks, and simplify the management of their heterogeneous IT infrastructure, helping maximize efficiency and value.

## Features

### Comprehensive Solutions

Designed for interoperability, SUSE Linux Enterprise Server from HPE integrates into classical UNIX® and Windows environments, supports open standard interfaces for systems management, and has been certified for IPv6 compatibility.

SUSE Linux Enterprise Server from HPE is backed by award-winning support from SUSE, an established technology leader with a proven history of delivering enterprise-quality support services.

SUSE Rancher Prime, SUSE Storage, and Linux Enterprise Micro/SUSE Linux Micro.

**Enterprise-class Technology**

SUSE Linux Enterprise Server HPC from HPE offers reliability, availability, and serviceability (RAS) features designed to increase system up-time.

SLES High Availability (HA) and SUSE Linux Enterprise Live Kernel Patching are designed to manage cluster servers in data centers to help minimize data loss due to corruption or failure by protecting your data assets using your existing IT infrastructure and eliminate unplanned downtime.

**Exceptional Value**

SUSE Linux Enterprise Server products from HPE are certified and supported across the entire HPE Servers portfolio.

SUSE Multi-Linux Manager helps enterprise DevOps and IT Operations teams reduce complexity and control IT assets with a single tool to manage Linux systems.

Comprehensive global services portfolio providing trusted and reliable support.

**Faster, Smarter SAP HANA Deployment**

HPE and SUSE are market leaders in infrastructure for SAP HANA® with a broader portfolio offerings, including as a service options.

SUSE Linux Enterprise Server from HPE is optimized to deliver high-performance mission-critical services, edge of network, and web infrastructure workloads for SAP® Application on HPE Servers portfolio with SUSE Linux Enterprise Server for SAP® Applications products.
