

SUSE Manager Lifecycle Management 1-2 Sockets Unlimited VM 1-year 24x7 E-LTU (S0F26AAE)

**Hewlett Packard
Enterprise**

What's new

- SUSE Rancher Prime and SUSE Longhorn products available now.

Overview

Are you looking for a reliable, scalable and multi-model Linux® operating system?

SUSE Linux Enterprise Server from HPE is a highly reliable, scalable, and secure server operating system, built to power mission-critical workloads in both physical and virtual environments.

It is an affordable, interoperable, and manageable open source foundation. With it, enterprises can cost-effectively deliver core business services, enable secure networks, and simplify the management of their heterogeneous IT infrastructure, maximizing efficiency and value.

Features

Comprehensive Solutions

Designed for interoperability, SUSE Linux Enterprise Server from HPE integrates into classical UNIX® and Windows environments, supports open standard interfaces for systems management, and has been certified for IPv6 compatibility.

SUSE Linux Enterprise Server from HPE is backed by award-winning support from SUSE, an established technology leader with a proven history of delivering enterprise-quality support services.

SUSE Rancher Prime, Longhorn and SLE Micro.

Enterprise-class Technology

SUSE Linux Enterprise Server HPC from HPE offers reliability, availability, and serviceability (RAS) features designed to increase system up-time.

SLES High Availability (HA) and SUSE Linux Enterprise Live Kernel Patching are designed to manage cluster servers in data centers to help minimize data loss due to corruption or failure by protecting your data assets using your existing IT infrastructure and eliminate unplanned downtime.

Exceptional Value

SUSE Linux Enterprise Server products from HPE are certified and supported across the entire HPE Servers portfolio.

SUSE Manager helps enterprise DevOps and IT Operations teams reduce complexity and control IT assets with a single tool to manage Linux systems.

Comprehensive global services portfolio providing trusted and reliable support.

Faster, Smarter SAP HANA Deployment

HPE and SUSE are market leaders in infrastructure for SAP HANA with a broader portfolio offerings, including "as a service" options.

SUSE Linux Enterprise Server from HPE is optimized to deliver high-performance mission-critical services, edge of network, and Web infrastructure workloads for SAP application on HPE Servers Portfolio.
